

RenaissanceRe Reports Net Loss Attributable to Common Shareholders of \$290.9 Million; Operating Income Available to Common Shareholders of \$4.4 Million in the First Quarter of 2021. Gross Premiums Written Increased by 30.9%.

- Grew gross premiums written by 30.9%, with 32.5% growth in the Property segment and 28.6% in the Casualty and Specialty segment.
- Major winter storms in February 2021, referred to as Winter Storm Uri, caused widespread damage in the U.S., predominately in Texas, and had a \$179.8 million net negative impact on net loss attributable to common shareholders, primarily in the Property segment.
- Repurchased 1.1 million common shares at an average price of \$159.47 per common share in the first quarter, with additional repurchases of 330 thousand common shares from April 1, 2021 through April 23, 2021 at an average price of \$167.62 per common share.

Pembroke, Bermuda, April 28, 2021 -- RenaissanceRe Holdings Ltd. (NYSE: RNR) (“RenaissanceRe” or the “Company”) today announced its financial results for the three months ended March 31, 2021.

Kevin J. O'Donnell, President and Chief Executive Officer, said, “*We materially grew our underwriting portfolio while returning significant capital to our shareholders during a quarter that was negatively impacted by Winter Storm Uri and volatile capital markets. Going forward, we anticipate additional opportunities to grow into a broadly improving market by matching desirable risk with efficient capital, both on our wholly owned balance sheets and in our industry-leading RenaissanceRe Capital Partners business. Together with improved yields in our investment portfolio, this diligent execution of our strategy will further contribute to shareholder value creation.*”

Utilized flexible platform to broaden access to risk and match with efficient capital, growing premiums on a gross and net basis

- Expanded participation on multiple casualty and specialty lines, benefiting from underlying rate increases and anticipated improvement in underwriting margins.
- Grew catastrophe-exposed U.S. property excess and surplus lines in the other property class of business.
- Took a disciplined approach at the January 1 and April 1 property catastrophe renewals, expanding participation predominately with existing customers at improved rates.
- Rebranded ventures unit as RenaissanceRe Capital Partners, reflecting partnership approach and strong alignment with third-party investors.

Net Negative Impact of Winter Storm Uri

Net negative impact on underwriting result includes the sum of (1) net claims and claim expenses incurred, (2) assumed and ceded reinstatement premiums earned and (3) earned and lost profit commissions. Net negative impact on net income (loss) available (attributable) to RenaissanceRe common shareholders is the sum of (1) net negative impact on underwriting result and (2) redeemable noncontrolling interest.

Net negative impact of Winter Storm Uri on the consolidated financial statements

Three months ended March 31, 2021	Winter Storm Uri
<i>(in thousands)</i>	
Net claims and claims expenses incurred	\$ (372,894)
Assumed reinstatement premiums earned	91,191
Ceded reinstatement premiums earned	(10,570)
Earned profit commissions	773
Net negative impact on underwriting result	(291,500)
Redeemable noncontrolling interest	111,666
Net negative impact on net loss attributable to RenaissanceRe common shareholders	<u>\$ (179,834)</u>

Net negative impact of Winter Storm Uri on the segment underwriting results and consolidated combined ratio

Three months ended March 31, 2021	Winter Storm Uri
<i>(in thousands, except percentages)</i>	
Net negative impact on Property segment underwriting result	\$ (288,470)
Net negative impact on Casualty and Specialty segment underwriting result	(3,030)
Net negative impact on underwriting result	<u>\$ (291,500)</u>
Percentage point impact on consolidated combined ratio	26.9

Estimates of net negative impact are based on a review of potential exposures, preliminary discussions with certain counterparties and actuarial modeling techniques. Actual net negative impact, both individually and in the aggregate, may vary from these estimates, perhaps materially. Changes in these estimates will be recorded in the period in which they occur.

Meaningful uncertainty remains regarding the estimates and the nature and extent of losses from catastrophe events, driven by the magnitude and recent nature of the event, the geographic areas impacted by the event, relatively limited claims data received to date, the contingent nature of business interruption and other exposures, potential uncertainties relating to reinsurance recoveries, and other factors inherent in loss estimation, among other things.

Three Drivers of Profit: Underwriting, Fee and Investment Income

Underwriting Results - Property Segment: Grew gross premiums written by 32.5%, losses primarily driven by Winter Storm Uri

Property Segment

<i>(in thousands, except percentages)</i>	Three months ended March 31		Q/Q Change
	2021	2020	
Gross premiums written	\$ 1,616,819	\$ 1,220,526	32.5%
Underwriting (loss) income	(41,795)	147,232	
Underwriting Ratios			
Net claims and claim expense ratio - current accident year	83.3 %	31.1 %	52.2 pts
Net claims and claim expense ratio - prior accident years	(0.9)%	3.3 %	(4.2)pts
Net claims and claim expense ratio - calendar year	82.4 %	34.4 %	48.0 pts
Underwriting expense ratio	24.5 %	30.7 %	(6.2)pts
Combined ratio	106.9 %	65.1 %	41.8 pts

- **Gross premiums written** grew 32.5%, primarily driven by:
 - Growth in the property catastrophe class of business of \$194.9 million, or 20.8%, primarily driven by \$90.1 million of reinstatement premiums associated with Winter Storm Uri, in addition to rate improvements which contributed to growth with existing clients and new opportunities across underwriting platforms.
 - Growth in the other property class of business of \$201.4 million, or 70.8%, primarily driven by rate improvements which contributed to growth in new and existing business written in the current and prior periods across underwriting platforms.
- **Ceded premiums written** were \$608.4 million, an increase of \$62.4 million, or 11.4%.
 - Primarily driven by an increase in gross premiums written which were ceded to third-party investors in RenaissanceRe’s managed vehicles, principally RenaissanceRe Upsilon Fund Ltd., and \$10.6 million of ceded reinstatement premiums earned associated with Winter Storm Uri.
 - As part of the Company’s gross-to-net strategy, the amount of ceded premiums written increased on an absolute basis, however the percentage of ceded premiums written relative to gross premiums written decreased.
- **Net claims and claim expense ratio** increased 48.0 percentage points, primarily driven by higher current accident year losses in the first quarter of 2021, compared to the first quarter of 2020, as a result of Winter Storm Uri.

- **Underwriting expense ratio** decreased by 6.2 percentage points primarily driven by:
 - Lower operating expenses in the current period due to reduced travel, marketing, and office operational expenses as a result of the COVID-19 pandemic.
 - Higher net premiums earned including \$79.7 million of net reinstatement premiums earned from Winter Storm Uri.
- **Underwriting losses** were \$41.8 million, primarily driven by Winter Storm Uri, which had a \$288.5 million net negative impact on the Property segment underwriting result and added 53.9 percentage points to the combined ratio.

Underwriting Results - Casualty and Specialty Segment: Grew gross premiums written by 28.6% and reported a combined ratio of 98.9%

Casualty and Specialty Segment

<i>(in thousands, except percentages)</i>	Three months ended March 31		Q/Q Change
	2021	2020	
Gross premiums written	\$ 1,035,623	\$ 805,195	28.6 %
Underwriting income (loss)	6,035	(83,153)	
Underwriting Ratios			
Net claims and claim expense ratio - current accident year	67.8 %	86.7 %	(18.9)pts
Net claims and claim expense ratio - prior accident years	(0.7)%	— %	(0.7)pts
Net claims and claim expense ratio - calendar year	67.1 %	86.7 %	(19.6)pts
Underwriting expense ratio	31.8 %	30.2 %	1.6 pts
Combined ratio	98.9 %	116.9 %	(18.0)pts

- **Gross premiums written** increased 28.6%, primarily driven by growth in new and existing casualty business written in the current and prior periods and rate improvements.
- **Net claims and claim expense ratio** decreased 19.6 percentage points, primarily driven by net losses related to the COVID-19 pandemic in the first quarter of 2020, which added 21.1 percentage points to the net loss ratio in that period.
- **The underwriting expense ratio** increased 1.6 percentage points driven by an increase in the net acquisition ratio, principally due to the effects of purchase accounting amortization related to the acquisition of TMR which decreased the ratio in the first quarter of 2020, partially offset by improved operating leverage.

Fee Income: Decrease primarily driven by decline in performance fee income related to Winter Storm Uri

Fee Income

<i>(in thousands, except percentages)</i>	Three months ended March 31		Q/Q Change
	2021	2020	
Total management fee income	\$ 28,524	\$ 26,796	\$ 1,728
Total performance fee (loss) income ⁽¹⁾	(4,535)	18,566	(23,101)
Total fee income	\$ 23,989	\$ 45,362	\$ (21,373)

(1) Performance fees are based on the performance of the individual vehicles or products, and may be negative in a particular period if, for example, large losses occur, which can potentially result in no performance fees or the reversal of previously accrued performance fees.

- **Total fee income** decreased by \$21.4 million primarily due to lower performance fee income, which was driven by Winter Storm Uri losses. The decrease was partially offset by higher management fees related to an increase in the dollar value of managed capital compared to the first quarter of 2020.

Investment Results: Performance primarily driven by net realized and unrealized losses in fixed maturity and equity trading portfolios

Investment Results

<i>(in thousands, except percentages)</i>	Three months ended March 31		Q/Q Change
	2021	2020	
Net investment income	\$ 79,804	\$ 99,473	\$(19,669)
Net realized and unrealized losses on investments	(345,563)	(110,707)	(234,856)
Total investment result	(265,759)	(11,234)	(254,525)
Total investment return - annualized	(4.9)%	(0.1)%	(4.8)pts

- **Total investment result** decreased \$254.5 million due to net realized and unrealized losses on investments of \$345.6 million, principally within fixed maturity and equity investments, including:
 - Net realized and unrealized losses on fixed maturity and short-term investments of \$261.8 million, primarily as a result of increasing yields on U.S. treasuries.
 - Net realized and unrealized losses on equity investments of \$67.9 million, principally from losses in the Company's strategic investment portfolio.
- **Managed fixed maturity and short-term investment** weighted average yield to maturity was 1.2% and average duration was 2.9 years on total consolidated fixed maturity and short-term investments, at fair value, of \$18.4 billion at March 31, 2021.

Other Items of Note in the Quarter

- **Net loss attributable to redeemable noncontrolling interests** was \$46.9 million compared to net income attributable to noncontrolling interests of \$98.1 million. The first quarter of 2021 result was primarily driven by losses in DaVinciRe Holdings Ltd. (“DaVinci”) and Vermeer Reinsurance Ltd. as a result of Winter Storm Uri, as well as investment losses, and a decrease in RenaissanceRe Medici Fund Ltd. (“Medici”) net income.
- **Corporate expenses** decreased \$5.6 million to \$10.4 million, primarily due to certain integration and compensation related costs from the acquisition of TMR incurred in the first quarter of 2020.
- **Income tax benefit** of \$19.5 million, principally driven by unrealized investment losses in the Company’s taxable jurisdictions.
- **Net foreign exchange losses** of \$22.8 million, primarily driven by losses attributable to third-party investors in Medici and miscellaneous foreign exchange losses generated by underwriting activities.
- **Share repurchases** of 1.1 million common shares in open market transactions in the first quarter at an aggregate cost of \$171.6 million and an average price of \$159.47 per common share.
- **Raised capital** totaling over \$760 million in the first quarter of 2021 through the Company’s joint ventures and managed funds, Upsilon RFO Re Ltd., DaVinci and Medici, including \$131 million from the Company. In addition, the Company entered into secondary transactions with third-party investors resulting in a net purchase of an additional \$117 million of DaVinci shares.

Subsequent events that may impact RenaissanceRe

- Effective April 1, 2021, the Company raised over \$100.0 million of capital through Medici. Following this transaction, the Company’s ownership in Medici was 13.7%.
- From April 1, 2021 through April 23, 2021, the Company repurchased 330 thousand common shares in open market transactions at an aggregate cost of \$55.3 million and an average price of \$167.62 per common share.

RenaissanceRe continues to monitor COVID-19 and expect that there may be significant industry losses

- RenaissanceRe continues to evaluate industry trends and potential exposure associated with the ongoing COVID-19 pandemic, and expects historically significant industry losses to emerge over time as the full impact of the pandemic and its effects on the global economy are realized.
- Net claims and claim expenses incurred associated with the COVID-19 pandemic were not significant in the first quarter of 2021.
- RenaissanceRe continues to actively monitor information received from or reported by clients, brokers, industry actuaries, regulators, courts, and others, and to assess that information in the context of its own portfolio.
- Loss estimates represent RenaissanceRe’s best estimate based on currently available information, and actual losses may vary materially from these estimates.

Comments on Regulation G

In addition to the GAAP financial measures set forth in this Press Release, the Company has included certain non-GAAP financial measures within the meaning of Regulation G. The Company has provided these financial measures in previous investor communications and the Company's management believes that these measures are important to investors and other interested persons, and that investors and such other persons benefit from having a consistent basis for comparison between quarters and for comparison with other companies within the industry. These measures may not, however, be comparable to similarly titled measures used by companies outside of the insurance industry. Investors are cautioned not to place undue reliance on these non-GAAP measures in assessing the Company's overall financial performance.

Operating Income (Loss) Available (Attributable) to RenaissanceRe Common Shareholders and Operating Return on Average Common Equity - Annualized

The Company uses "operating income (loss) available (attributable) to RenaissanceRe common shareholders" as a measure to evaluate the underlying fundamentals of its operations and believes it to be a useful measure of its corporate performance. "Operating income (loss) available (attributable) to RenaissanceRe common shareholders" as used herein differs from "net loss attributable to RenaissanceRe common shareholders," which the Company believes is the most directly comparable GAAP measure, by the exclusion of net realized and unrealized gains and losses on investments, excluding other investments - catastrophe bonds, net foreign exchange gains and losses, corporate expenses associated with the acquisition of TMR and the subsequent sale of RenaissanceRe (UK) Limited ("RenaissanceRe UK"), the income tax expense or benefit associated with these adjustments and the portion of these adjustments attributable to the Company's redeemable noncontrolling interests." The Company's management believes that "operating income (loss) available (attributable) to RenaissanceRe common shareholders" is useful to investors because it more accurately measures and predicts the Company's results of operations by removing the variability arising from: fluctuations in the fair value of the Company's fixed maturity investment portfolio, equity investments trading, other investments (excluding catastrophe bonds) and investments-related derivatives; fluctuations in foreign exchange rates; corporate expenses associated with the acquisition of TMR and the subsequent sale of RenaissanceRe UK; the associated income tax expense or benefit of these adjustments; and the portion of these adjustments attributable to the Company's redeemable noncontrolling interests. The Company also uses "operating income (loss) available (attributable) to RenaissanceRe common shareholders" to calculate "operating income (loss) available (attributable) to RenaissanceRe common shareholders per common share - diluted" and "operating return on average common equity - annualized." The following table is a reconciliation of: (1) net loss attributable to RenaissanceRe common shareholders to "operating income (loss) available (attributable) to RenaissanceRe common shareholders"; (2) net loss attributable to RenaissanceRe common shareholders per common share - diluted to "operating income (loss) available (attributable) to RenaissanceRe common shareholders per common share - diluted"; and (3) return on average common equity - annualized to "operating return on average common equity - annualized." Comparative information for all prior periods has been updated to conform to the current methodology and presentation.

- (1) Adjustment for income tax expense (benefit) represents the income tax (expense) benefit associated with the adjustments to net income available to RenaissanceRe common shareholders. The income tax impact is estimated by applying the statutory rates of applicable jurisdictions, after consideration of other relevant factors.
- (2) Represents the portion of these adjustments that are attributable to the Company's redeemable noncontrolling interests, including the income tax impact of those adjustments.

Tangible Book Value Per Common Share and Tangible Book Value Per Common Share Plus Accumulated Dividends

The Company has included in this Press Release “tangible book value per common share” and “tangible book value per common share plus accumulated dividends.” “Tangible book value per common share” is defined as book value per common share excluding goodwill and intangible assets per share. “Tangible book value per common share plus accumulated dividends” is defined as book value per common share excluding goodwill and intangible assets per share, plus accumulated dividends. The Company’s management believes “tangible book value per common share” and “tangible book value per common share plus accumulated dividends” are useful to investors because they provide a more accurate measure of the realizable value of shareholder returns, excluding the impact of goodwill and intangible assets. The following table is a reconciliation of book value per common share to “tangible book value per common share” and “tangible book value per common share plus accumulated dividends.”
